

myGeeky

What's new in your field? Come and see. It's all here.

Research, AI news, models and the people in your field, picked for your own work, in one small panel on your screen.

Headlines for your field

AI labs, journals and the tech press, ranked by what you work on

Research that's rising

papers gaining citations fastest, with their code.

Models in your field

trending on Hugging Face, in your field and everywhere

Your people on GitHub

researchers who share your work and will follow back

Projects that want you

repos in your field with starter issues

Keywords with meaning

add "AI" and it also finds LLMs and deep learning
