

myGeeky

Find friends. Collaborate. Away from noise.

The people, papers and projects of your field,
picked from your own work, in one quiet panel on
your screen.

Headlines for your field

AI labs, journals and the tech press, ranked by what you work on

Research that's rising

papers gaining citations fastest, with their code

Models in your field

trending on Hugging Face, in your field and everywhere

Your people on GitHub

researchers who share your work and will follow back

Projects that want you

repos in your field with starter issues

Keywords with meaning

add "AI" and it also finds LLMs and deep learning
